

## **City, University of London has appointed Paul May as an Honorary Senior Visiting Fellow**

Paul May has been appointed as an Honorary Senior Visiting Fellow at City, University of London based in the Faculty of Actuarial Science and Insurance of Bayes Business School.

Professor of Insurance, Chris Parsons, is *“very glad to see a formal recognition of Paul’s contribution to Bayes over many years and we look forward to a continued and fruitful relationship with him”*.

Dr Cormac Bryce, Course Director of the MSc Risk & Insurance, and Corporate Risk Management programmes at Bayes is *“excited to have Paul join the team, his breadth and depth of experience in the insurance industry across multiple international jurisdictions means that he is the perfect interface between industry and academia for our students, providing context and opportunities for our students to grow. As an FT top 5 ranked business school in the UK we are always striving to ensure we are at the forefront of current industry thinking, and Paul brings the insurance industry to us like few others can”*.

Paul has since 1990 supported the MSc programme including running the Claims Management module, supervising dissertations and delivering ad hoc Risk and Claims lectures.

Paul is *“looking forward to continuing to support taught and research activities and progressing my specific research interest in Corporate Governance Law and Risk Management.*

*During the last 45 years as a Chartered Loss Adjuster, Chartered Insurance Risk Manager, Compliance Auditor and a practising Expert Witness I have met around 10,000 directors of companies and associations, usually at a time of loss, disaster, strategic challenge or financial stress and jeopardy. This experience underpins my research, especially into the Legal and Risk Management responsibilities of directors (executive and non-executive).*

*I am looking forward to making the most of the world class library resources at Bayes, and the City Law School: <https://www.city.ac.uk/about/facilities/libraries>”.*

Paul can be contacted on City University and Bayes Business School issues at Paul.May@City.ac.uk.
